

Ratepayers And Council of Blackfoot M.D. Hold Meeting

Public meeting of the council and ratepayers of the Municipal District of Blackfoot, No. 218, was held in the municipal office last Tuesday afternoon, October 9th, at 2 p.m.

The councillors and six ratepayers including J. C. Buckley, M. L. A., were present.

With the consent of the ratepayers, J. C. Buckley, M. L. A., acted as chairman and W. J. Thompson as secretary.

Mr. Buckley read the petition requesting the reeve to call this meeting and imparted to the ratepayers gathered that the meeting was open for them to proceed with the two questions embodied in the petition.

Mr. Prestwich said that notwithstanding requests from Mr. Praeger and other resident ratepayers to have the grading stopped on the Stobart road the council had proceeded with the work.

In reply Reeve Thorsen said it was true that Mr. Praeger, but no other ratepayer, objected to me to the grading of the Stobart road. The road commissioner and myself immediately got in touch with Mr. Praeger, who withdrew his objection upon viewing the condition of part of the completed road.

Mr. Oliver said he was using the Stobart road and previous to grading he could haul 240 bushels each trip but after grading he could not haul more than 160 bushels.

Mr. Prestwich said that on account of the ditches on the newly graded roads it was impossible for farmers to get on their property and the council should give some notice when they intended proceeding with such work and thereby avoid inconvenience to the farmers.

Mr. Ferguson said that had the same traffic passed over the old Stobart road as had passed over after it was graded, during the same time the old road would have been in worse condition.

Mr. Hansen asked: "Was the municipality putting culverts and grades from the roads to farm entrances? The council have ignored petitions signed by ratepayers which I consider a dangerous situation."

Reeve Thorsen: "No."

Mr. Prestwich: "Culverts have been taken out of the market road. Will new culverts be put in?"

Reeve Thorsen: "New culverts will be put in the market road where necessary."

Mr. Hedges: "Why is it that four miles of market road is opened up for grading at one time?"

Road commissioner: "Two rounds were made with the grader on the north and south two miles of the market road, which does not interfere with traffic, so that it would be ready for the elevating machine which we expect to have unloaded at Stobart tomorrow. The power outfit is proceeding with the grading of the remaining two miles of the market road and should finish tonight."

Copies of letters from the municipal district to the Department of Public Health and to Mr. Buckley regarding the condition of the sewage disposal at the Eventide Home, were read. Mr. Buckley explained that the Blackfoot council had done all in their power to get this condition remedied and that the fault of this condition rested upon the Department of Public Health, the Department of Public Works and the Department of the Attorney General as those three departments have each a part in bringing this issue to a close.

A new automatic crossing gate, intended to be operated by the approach of a train, is jointed so that it will not damage a vehicle it might happen to strike in its descent.

HEROES OF EARLY DAYS WEREN'T SO VERY GLAMOROUS

Officers Who Opened Up The West Chewed And Seldom Shaved

Romance may pain the gallant officers who fought Indians on the great plains in glowing colors—dashing figures in blue on prancing steeds and all that sort of thing—but as a matter of fact they didn't shave often and they chewed tobacco.

This is the cold fact that belies romance, as discovered in reproducing the history of the Bozeman Trail and the carving of a gateway to the west in "The Bugle Call" Metro-Goldwyn-Mayer's new Jackie Coogan feature—a historical romance of the great plains with Jackie as a bugle boy in a cavalry post. This picture will be seen in the Gleichen Community Hall next Saturday night.

Edward Sedwick, who directed the picture and Colonel George L. Byram, U. S. A., who handled the military detail went to great lengths to make the picture historically correct—and the chewing tobacco (they called it "eating tobacco") and other details were duly reproduced in the story. Jackie Coogan in a role new to most of his fans—with a haircut. He plays a boy approaching his teens, the son of a cavalry captain on the plains, who plays a bugle with the troop buglers. It is one of Jackie's most ambitious roles, and in one of the biggest productions he has ever been starred in.

Thrilling replicas of historic Indian battles on the plains, cavalry action, and other thrilling incidentals mark the reproduction. One of the striking bits is the opening, reproducing an actual scene in history, in which General Grant, then president, outlines the plans for establishing the Bozeman Trail through Wyoming as the new gateway to the settlers travelling toward the West in the '70's.

9 a.m. Holy Communion.
11 a.m. Sunday School.
7:30 p.m. Evensong.
Sunday October 28th 1928
Harvest Thanksgiving.

OBITUARY

The death of Mrs. Margaret Jowett at the age of 79 years in the Holy Cross Hospital at Calgary Monday morning, Oct. 15th, was received in Gleichen with sorrow, by her many friends here as it was only a few weeks ago that she visited Mrs. J. C. Hutchison and other Gleichen friends for several weeks and appeared to be enjoying good health and was very active. She became quite ill with heart trouble after leaving here and was taken to the hospital three weeks previous to her demise.

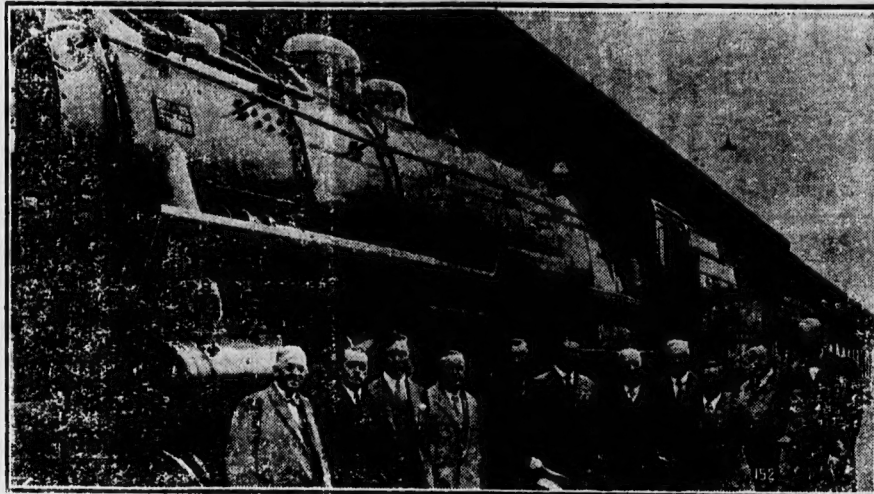

The funeral will take place at Gleichen tomorrow, Thursday, at 4:30 p.m. when the Rev. Canon G. Gale of Calgary will conduct the service in St. Andrew's church.

Mrs. Jowett came to Gleichen in January of 1912 with her husband, A. W. Jowett, who occupied a position in the Blackfoot Indian Agency until his death in the spring of 1918. Their only son, Reginald was among the first to leave here for overseas during the Great War and lost his life in the service of his country.

During the war Mrs. Jowett took a very active interest in the Red Cross and was president of the Gleichen branch accomplishing great work. Throughout her life she was a very active lady, being very active in all church matters and many are now surprised to learn her age.

We wonder if the inhabitants of Mars were sufficiently educated to spell and pronounce the name of that Skjellerup comet.

3100 Inspected by Empire Delegates

The inspection by the delegates of the British Empire Parliamentary Association of the largest passenger engine in the British Empire, the new Canadian Pacific 3100 afforded an opportunity for a group photograph of a number of prominent members at Windsor Station on their way home. From left to right they are: A. B. Calder, special representative of the Canadian Pacific Railway; Gerald O'Sullivan, T.D.; and Martin Roddy, T.D., from the Irish Free State; Jozua Francois Tom Naude, M.L.A., South Africa; Hon. L. Cripps, Speaker of the Legislative Assembly of the Colony of Southern Rhodesia; Hon. Ernest George Janzen, M.L.A., Speaker of the House of Assembly, South Africa; Senator William George Thompson, V.D.; Australia; Sir Samuel Chapman, M.P., Great Britain; Geo. Hambleton, Ottawa; C. W. Masterson, Montreal; and Major Guy Kindersley, M.P., Great Britain.

Big Hockey Dance Car-Order Book Stolen

Friday, October 19th, in Gleichen Community Hall

Hockey! A little early—No! Well, it's started already, whether or not, and it is going to continue till Jack Frost says so next spring.

The 22nd Battery Hockey Team has already had a meeting and elected officers for the season 1928-29 and all are enthusiastic to get organized right and, if possible, make the coming season an even greater one than last.

To start with they decided they must appear well, and in this they know the girls are all in sympathy with them and, of course, the fellows will not turn them loose shabby. New uniforms they must have first thing and to get these a big dance is all set for next Friday, Oct. 19th. In this way all the rosters will have a chance to meet all our stars and show their appreciation of the boys excellent work last year—yes, and size them up for the coming season.

It is up to one and all to attend this dance to encourage our home-brew.

The line-up this year is not all picked, but there will be little change in it, a few gone and others to take their places. Remember our boys are a year older and to some little extent heavier and even better qualified. Then too we have some fast school boys to pick from.

Looking forward the Battery has also decided to sponsor a Junior Hockey team this year that the home-brew may ever continue and hired help unnecessary.

Town and District News

Threshing was resumed Monday and there is still considerable to be done.

The weather has been good since Friday, but a high wind today interferes with threshing operations.

Louie Hong of Cluny is the happiest Chinaman in the world all over the arrival of a boy at the home of Mrs. Cox in Gleichen on Tuesday, October 9th.

The ladies of the United Church Circle will serve a Thanksgiving Supper in the Community Hall on Friday evening, Nov. 2nd. After supper the Rev. Dickson of Knox United Church, Calgary, will deliver a lecture entitled "Canada and Canadians from the view point of a Scotaman".

Arrangements are being made to have Bishop Sherman of Calgary deliver an address under the auspices of the Gleichen Canadian Club and the Chamber of Commerce on Monday, Nov. 26th, at a luncheon.

The ladies of the Cluny Catholic Women's League will give a whist party in the Cluny Hall on Friday, Oct. 26th, to which all are invited. Admission \$1.00.

The season for box-car tourists is at an end and already some are finding winter quarters at Lethbridge.

A full attendance is requested at a meeting of Golden Jubilee K of P. next Monday, Oct. 22nd.

COMING EVENTS

Ads. under Coming Events 25c. per count line unless otherwise advertised in The Call.

Oct. 19—Big hockey dance in the Gleichen Community Hall.

Oct. 22—Golden Jubilee K of P. meeting.

Oct. 24—J. Shaw, M.L.A., address on "Europe" to Canadian Club.

Oct. 26—Whist Party by Cluny Catholic Women's League in Cluny Hall.

Nov. 2—Rev. Dickson Lecture and Thanksgiving supper. Gleichen Community Hall.

Nov. 10—U. F. W. W. sale of home cooking, farm produce, afternoon tea. Gleichen Community Hall, at 3 p.m.

Nov. 16—Cluny Women's Institute Red Cross Dance at Cluny Hall.

Nov. 28—I. D. Macdougall, M. P., of Nova Scotia, address to Canadian Club.

Dec. 1—Cluny W. I. Annual Bazaar and Chicken supper.

Dec. 2—United Church Xmas Sale

That fellow who killed another for reading movie sub-titles aloud will hardly be able to make a convincing insanity plea, but may get off on the ground of justifiable homicide.

Thomas Jordan of Wandsworth, England, admitted he stabbed Mrs. Ellen Hurley, but said he did it because she pulled out his false teeth and threw them away.

Judging by what is happening in England, a fruitful source of future civil wars may be seen in attempts to revise the prayer books.

Many are going but measurably smaller number are getting on.

ONTARIO GRAPES

Are now coming in and if you intend putting them up now is the time as they will soon be over. Onions are going up in price and we have some 25 pound sacks at \$1.25 Plum Jam nice and tasty at 60c Blackberry Jam at 65c

DISCOUNT BONDS HAVE CASH VALUE

Announcing Our New Cash Discount System

A SIMPLE SELF-WORKING PLAN THAT SAVES YOU MONEY ON EVERY CASH PURCHASE

We are introducing a permanent new system of CASH DISCOUNTS.

For each and every 25c. you spend in this store on and after this date, you will receive a CASH DISCOUNT BOND.

You can then use these BONDS in this store just the same as money. We will redeem them at their full face value at any time—in any number—on any purchase.

These BONDS mean an additional Discount on prices that always represent the highest values obtainable in quality of goods, and of service.

There are no strings—no conditions. Just make sure you get your BONDS—then cash them here whenever you are making purchases.

NO THRIFTY BUYER CAN AFFORD TO OVERLOOK THE WORTH-WHILE SAVINGS THESE BONDS OFFER.

CANADIAN SERVICE

WORLD HAPPENINGS BRIEFLY TOLD

The demand for registered seed next year will be even greater than in previous seasons in the opinion of the Saskatchewan Registered Seed Growers' Association in Moose Jaw.

Dr. S. Parkes Cadman, chairman of the China famine relief organization, in New York City, received information of the reported massacre of about 200,000 persons by fanatic Moslems in Kansu Province, China.

For the twelve months ending August 31, the Dominion Bureau of Statistics reports that alcoholic beverages valued at \$23,816,178 were exported from Canada to the United States.

More than 1,000 Saskatchewan old timers were in receipt of old age pensions under the plan approved at the last session of the provincial legislature at the end of September and there are about 2,000 more applications under investigation.

Capt. T. P. Worshop, 64, formerly Port warden of Vancouver and one of the first to operate a vessel on the upper Yukon river during Klondike gold rush, died at his home in Kamloops, B.C., after an illness of several months.

Stocks of surplus military explosives, including more than 126,000 pounds of TNT, accumulated by the government during the World War, have been put to industrial uses, the United States Bureau of Mines reports.

Men would do well to copy the fair sex in the matter of scant garments. Dr. Gerald S. Webb, of Colorado Springs, told physicians conferring at the New York Academy of Medicine. Short skirts and light clothing worn by women prevent pneumonia, he said.

Up to October 8, this year, 100,439 Saskatchewan people have secured licenses for privately owned automobiles. The total number of cars licensed, not including the licenses issued to dealers, is 116,036. During the corresponding period of the previous year, the total was only 102,365.

Dr. Wilhelm Groener, minister of defence, has issued a decree ordering all officers of the reichswehr to leave any function at which the former kaiser or any of the former ruling princes are seated. The reichswehr members are ordered to leave if any function should develop into a demonstration against the German republic.

HE DIDN'T THINK DYSENTERY COULD BE RELIEVED

Mr. John Melling, Fenner, Alta., writes:—"I am a returned soldier, and when I came home from overseas I suffered greatly with dysentery. The doctor said it was chronic and did not think it could be relieved. However, he doctored me for quite a while, but did me no good. One day the druggist asked me if I had ever tried

"On his recommendation I bought a bottle and after I had taken it got some relief, so I got two more, and have never had the dysentery since."

Peru Has Automatic Phones

Courteous Conversation With Telephone Girl Thing Of Past

The new automatic telephones in Lima, Peru, will do away with some of the world's most courteous and leisurely conversation with telephone girls.

"Do me the favor, Senorita, to put me in touch with number so-and-so" is the most successful formula for making a call there.

If delay occurs, polite remonstrance may be expressed as follows: "No answer? But it appears to me, Senorita, that an error is possible. Will you have the kindness to try the number again?"

Telephone girls answer a call by giving their individual number, such as "18," so that complaints about service may be traced more easily. The practice was introduced more than a year ago by the manager of the local company, after he had read a United Press dispatch saying that such a system was used in Moscow.

The Cheerful Giver

"Here, Benny," said Mr. Bloom-bumper to his young son, as the latter started to church, "is a five-cent piece and a quarter. You can put which you please into the contribution box." Curious to know which coin Benny had given, his papa asked him when he returned and Benny replied, "Well, papa, it was this way: The preacher said the Lord loved a cheerful giver and I knew I could give a nickel a good deal more cheerfully than I could give a quarter, so I put the nickel in."

Might Be Good Advice

Rockefeller's Idea Of How To Get On In World

From New York comes a new story concerning John D. Rockefeller, the multi-millionaire.

A young man asked his advice as to how best to get on in the world. "Work hard and set yourself to buy a gold watch," was the reply.

"Yes," queried the listener, "and when you've bought the gold watch?"

"You don't buy a gold watch," replied Mr. Rockefeller, "you buy a gun-metal one and start all over again for a motor car."

"And when you've got the money for a motor car?"

"Well, you remember the watch, if you're not a fool, and go on walking to business."

Medical Officers For North

Steps Taken To Care For Natives In Arctic Zone

Realizing that the future development of the Canadian north depends to a large extent on a healthy and contented native population, the Department of the Interior has ever maintained efforts to this end. An important step taken since the Department assumed the administration of Eskimo affairs last year was the decision to station medical officers on the Arctic coast and islands.

Dr. L. D. Livingstone, whose work among the Eskimos of Baffin and other Arctic islands covers a number of years, again returned north with the SS. Beothic this summer and after a visit to the various posts with the ship he disembarked at Pangnirtung to resume his work among the natives of Baffin Island.

Another post at which it was decided to place a medical officer before winter set in was Akilvik, in the delta of the Mackenzie River. In response to the official announcement of this vacancy, applications were received from a number of competent physicians, and Dr. W. M. Wilkinson, of Elsas, in northern Ontario, was selected.

His sudden death from heart disease at Edmonton en route to his new post necessitated the selection of another officer. Dr. J. A. Urquhart, of Mountain Park, Alberta, who is a graduate of McGill, a veteran of the great war, and has had considerable experience with northern and pioneer conditions was appointed. He left Edmonton on August 21, in order to catch the last boat this season from Fort Smith, N.W.T., down the Mackenzie to Akilvik. Dr. Urquhart, in addition to his work among the natives, will also give medical assistance to the representatives of other federal departments in the north, namely, the Royal Canadian Mounted Police, the Department of Indian Affairs, and the Department of National Defence (Royal Canadian Corps of Signals).

Proves Gulf Stream Unchanged

Bottles Found To Have Followed Exact Direction Charted

Bottles found by Breton fishermen bear out the contention of the National Geographical Society, in Washington, that the Gulf stream has not changed its route.

Bottles put into the stream off Florida were picked up at various places off the French coast by fishermen moving in the exact direction charted for the stream. The French navy department has advised the National Geographic Society of the finds.

Mistress: "One of your references is missing."

New Maid: "Yes, ma'am, it really didn't do me justice."

We understand that there is a Scotsman in Greenland who keeps his thermometer in the house so it won't freeze.

Small boy: "Say, mister, give me a pound of oysters."

Dealer: "We sell oysters by the measure, my boy, not by the pound."

Small Boy: "Well, then, give me a yard."

Women voters outnumber men in four constituencies in England, and in two of these, Cheltenham and one Glasgow division, the present M.P.'s are bachelors.

The heart of the average adult is 5 inches long, 3 1/2 inches broad and 2 1/2 inches thick.

"The wonder metal of the age" is a fitting term for Aluminum. Its lightness, brightness, flexibility, freedom from rust, and many other good qualities, make it adaptable to a multitude of uses, a chief one being as a container par excellence for good tea—Red Rose Tea is packed only in this modern metal package.

Scores Modern Trend

Bishop Of Durham Says Britain Is In A State Of Moral Chaos

England is in a state of moral chaos, according to Dr. Hensley Henson, bishop of Durham, who addressed the church conference at Cheltenham.

Scoring the change in attitude toward Christianity, the bishop said: "The two pillars on which sex morality and Christendom rested hitherto have been the acceptance of the marriage union as permanent by divine law and the existence and claim of the child as the proper product of the marriage union. Both of these pillars have been removed by the licentious theories prevalent."

He continued with a scathing denunciation of England, which he branded as a "nation of churchless, creedless Christianity which now seems to commend itself to a large number of English folk."

Birth control, easy divorce, and de-Christianized schools he called vicious forces which are supplying the most effective means of breaking the traditions of Christianity. He said the Church of England cannot rest longer upon the conventions, solemnly warning that the conditions which preceded the revolt against Christianity in France and Russia are certainly present in England.

"The peasants are indifferent; the urban masses are disaffected; the middle classes are sentimentally antagonistic, and the intelligentsia largely anti-Christian," said Bishop Henson, "and the owners of wealth are self-indulgent and materialistic."

"The contrast between wealth and poverty, self-indulgent luxury and cruel privations, pleasant activities of wealth and abhorrent inactivity of the unemployed, are being reproduced, exaggerated, and proclaimed by the cinema, popular press, and illustrated society journals. New bitterness has entered into the inequalities of fortune."

Small boy: "Say, mister, give me a pound of oysters."

Dealer: "We sell oysters by the measure, my boy, not by the pound."

Small Boy: "Well, then, give me a yard."

For Calendar Reform

Canadian League Of Nations Society To Get Behind Movement

Authorization of a new membership drive, placing of the "model assembly" movement on a permanent basis, and calendar reform were amongst the important questions dealt with at a meeting at Ottawa of the central executive committee of the League of Nations Society in Canada. Sir George Foster, the president, occupied the chair and a large representation of the membership attended.

Sir George referred to the success of the 1928 membership drive and voiced the hope that the 1928 campaign might bring the number of those in the Dominion actively interested in League aims up to 50,000. Plans for next year's drive were left for formation in the hands of a committee.

The president extended to Groves Smith cordial thanks for the guidance which he gave students of several Canadian universities last June in making a striking success of the "model league assembly" held in Ottawa as an experiment. Speaking on the subject, Mr. Smith referred to the desire of the students that the movement be put on a permanent basis and that it may be organized in various centres throughout the Dominion. A number of universities have already been approached and apparently there was sympathy with the idea.

It was suggested that government support might eventually be obtained for the holding of "model assemblies" in view of the fact that Canada is a member of the League of Nations.

Groves Smith presented a review of steps taken toward calendar reform in the past twenty years. The League Society in Canada, he said, was the logical organization to present the subject and get the measure of public opinion in Canada as the official representative here of the League of Nations in Geneva.

He thought many advantages, financial and otherwise, would accrue from simplifying division of time, say to thirteen equal months a year instead of twelve.

The executive decided to consider data submitted during the coming month and to take action at the November meeting.

Demand For Registered Seed

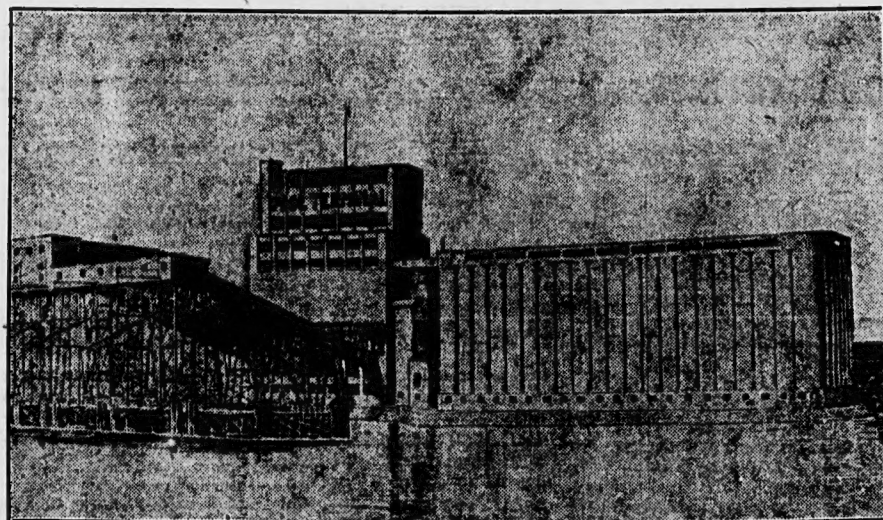

The demand for registered seed next year will be even greater than in previous seasons in the opinion of the officials of the Saskatchewan Registered Seed Growers' Association in Moose Jaw.

"You're doing well, young fellow," said the shipping clerk encouragingly, "the foreman praises you to the skies."

"I'd sooner he'd praise me to the boss," was the quiet reply.

No matter how shabbily you treat it, home like any true friend, won't go back on you.

ALBERTA WHEAT POOL NEW TERMINAL ELEVATOR

That the Alberta Wheat Pool is anticipating in future years the great bulk of Alberta's crop will seek the world's markets by way of Pacific tidewater is evident from that organization's activities in building and acquiring terminal elevator space at Vancouver and Prince Rupert.

Just recently a great new terminal has been completed for the Alberta Pool, at Vancouver, by the Northern Construction Company and J. W. Stewart, and with C. D. Howe & Company, recognized as one of the foremost designers of terminal elevators, as the engineers. The capacity of this new terminal is approximately 2 1/2 million bushels which brings the total storage controlled by the Alberta Pool on the Pacific coast up to 5,300,000 bushels.

The new Alberta Pool terminal is located adjacent to the Second Narrows Bridge on the city side of Vancouver Harbor. There its work-house towers 200 feet into the air. Flanked with huge bins 123 feet high, as material testimony to the foresight of the Alberta Pool farmers.

When the Pool organization started its venture into the elevator business in 1925, it at once laid plans for the securing of an elevator site at Vancouver whereupon to build a terminal which would be operated in conjunction with the line elevator system to be developed throughout Alberta. At the present time the Alberta Pool has over 300 country elevators scattered through the length and breadth of the province and controls two terminals at the coast besides

the one just built. At Prince Rupert the Pool has under lease Canadian Government terminal elevator with a capacity of 1,250,000 bushels. At Vancouver another government terminal with a capacity of 1,640,000 bushels is also under lease. The combination of line and terminal elevators provide a well balanced elevator system which is greatly in favor with the Pool membership of the Province of Alberta.

The Alberta Pool elevator system works on a patronage basis, that is, excess earnings are distributed to the pool farmers who ship through pool elevators, or direct their loaded cars to pool terminals. Approximately one million dollars excess earnings from the elevator operations during the 1927-28 crop year were returned direct to Alberta Pool elevator patrons.

For COLDS of All the Family

This Modern External Treatment is best

Mothers prefer the external treatment, Vicks VapoRub, for children's colds, because it avoids the constant "dosing" so disturbing to delicate little stomachs. You just rub it on the throat and chest at bedtime.

Other members of the family prefer Vicks for their own colds, because it is convenient, and quick in bringing relief.

For free sample, write Vicks Chemical Co., No. 1 Lee St., Greensboro, North Carolina, U.S.A.

VICKS VAPORUB

Acts 2 Ways at Once

Recipes For This Week

(By Betty Barclay)

LAMB SOUFFLE

- 1 cup soft bread crumbs.
- 2 cups thick white sauce.
- 2 eggs.
- 1 teaspoon chopped parsley.
- 2 cups chopped lamb.
- 1/2 tablespoon salt.
- 1/4 teaspoon pepper.
- 1 teaspoon onion.

Make and cool white sauce, then mix it with crumbs, seasoning, and chopped meat. Add the beaten yolks of eggs, then fold in the stiffly beaten whites. Put into a well-buttered baking dish and set in a hollow pan containing one inch of boiling water. Bake twenty to twenty-five minutes in a moderate oven. Serve at once.

LEMON JUNKET IN PRUNE WHIP

- 1 packet lemon junket.
- 1 1/4 cups stewed prunes.
- 1 pint milk.
- White 1 egg.
- Sugar.

Put the stewed prunes through a coarse sieve into a large bowl; sweeten to taste. Add the white of egg and beat with wire whisk 10 minutes. Fill tall dessert glasses half full. Dissolve the junket powder in the slightly warmed milk and pour carefully into glasses, holding a spoon flat over the whip to catch the milk as it is poured in. This careful pouring will keep the whip from floating. Let set in warm room until firm. Grate a little nutmeg over top. Chill.

Jury System For Japan

New Court Method Adopted In 1923 Goes Into Effect

Japan passed a milestone in constitutional progress recently when the jury system became effective. Heretofore criminal cases were tried by government appointed judges.

The Japan courts held a fitting celebration. The emperor personally visited the supreme court, the Tokyo district court and the ministry of justice.

The jury system, providing for a twelve-man jury, was drafted in 1919, and adopted by the diet on April 18, 1923.

Keeping Out Bolshevism

The Victoria Colonist says: "Strong teachers are the most efficient safeguard. In any district where there is a large proportion of foreigners attending the schools there is always danger of pernicious and unpatriotic doctrines being encouraged. Bolshevism has not much of a hold in Canada, but there is fertile soil for its spread among foreigners if the proper safeguards are not applied."

Origin Of Old Saying

The expression "Throwing sand in their eyes" is said to have had its origin in Southern Siberia, where the tribes depend for safety largely on the fleetness of their horses. The land is very sandy and the method of repulsing an opponent was by means of a handful of sand tossed at him, with the result, if the aim was good, of at least temporary bewilderment and blindness.

Artificial Clouds a Success

German Invention Makes Country Entirely Invisible From Air

Experiments in making cloud screens capable of hiding an entire country side from airplanes have been concluded near Stuttgart, and the results were pronounced highly satisfactory.

Flame throwers of the same type employed during the war were used for distributing gas which, upon striking the air, becomes heavy and opaque. The purpose of the test was to determine if an entire industrial section could be made invisible to hostile airplanes. The flame throwers were mounted on the ground on all sides of the area around which it is desired to lay a screen. Thus the section could be hidden regardless of the direction of the wind.

Planes flew over the region after the cloud was laid and observers declared they were unable to detect a single building through the gas cloud. Photographers returned with plates which proved worthless as far as identification was concerned. The composition of the cloud forming gas was kept secret.

Extending Air Mail Service

Several Proposed Routes Surveyed By Canadian Air Force

Extension of the Canadian air mail service to embrace the route already mapped out between Toronto and Windsor, Ont., is a possibility at an early date, it was learned at the post office department at Ottawa. With the return of Hon. P. J. Veniot, postmaster-general, who at present is on a visit to the Maritime Provinces, an official announcement will be made as to the definite date for the inauguration of the service.

Several other proposed routes have already been surveyed by members of the Canadian Air Force, but it is understood that further extensions will not be undertaken this year. The opening of the Winnipeg-Calgary air mail line is planned for early next spring.

Grumblers Talk Loudest

The trouble about the harvesters' grievances, as of all immigration grievances, is that we are likely to hear a lot more about the failures than the successes. Those who are preparing to "crab" the harvesters' scheme would do well to wait a bit, and bear this fact in mind. The men will not lack able defenders if it is shown that they are victims of official misrepresentation and callous disregard of their welfare.

"I suppose you have read of the danger in kissing?" he remarked. "Yes," she replied; "but I come of a family noted for courage."

MADE IN CANADA CHRISTMAS

In an editorial, "Canadian Products
for the Christmas Trade," the Mail
and Empire of Toronto, publishes an
appeal to all Canadians to buy Cana-
dian goods for the annual gift-giv-
ing season.

After stressing the enormous turn-
over that takes place across the Do-
minion at Christmas time, the Mail
and Empire notes that a very large
proportion of the Canadian Christ-
mas trade goes directly into the cof-
fers of United States firms. The
article continues:

Useful and Beautiful

"Why should not the people of Cana-
da extend their Christmas good-
will to the industries of their own
country, thereby befriending the
great body of Canadian workers?
Now is the time to think about tak-
ing action in pursuance of that sug-
gestion. Let it be known as soon as
possible that the Christmas giving
will more than ever before mean the
distribution of goods made in Cana-
da. Of useful things and beautiful
things this country is supplying a
variety and quantity sufficient to
satisfy a large part of the demand
on Christmas account. And nothing
will give greater pleasure to the re-
cipient than a fine article of Cana-
dian cultivation.

WHEAT POOL NEWS

The Alberta Wheat Pool has made
its final payment, this being 2 1/2 c.
per bushel for wheat delivered to the
1927-28 Pool, except for a few minor
grades. The total of this payment
was \$1,955,693.58.

The Pool paid the following prices
for wheat delivered from the 1927
crop: 1 Northern \$1.42 1/4; 2 Northern
\$1.35 1/4; 3 Northern \$1.25 1/4; No. 4
\$1.14 1/4; No. 5 \$1.01 1/4; No. 6 92 1/2;
feed 85 1/2.

When the Wheat Pool distributed
its second interim payment last
July, 4c. per bushel were retained to
provide for elevator reserve, commer-
cial reserve, and administration
cost. It was found but 3 1/4 c. per
bushel were required for these pur-
poses so the one-half cent balance
was included in the final payment al-
ong with the 2 1/2 c. per bushel received
from the Central Selling Agency.

The administration costs during the
past year were 9-20 of a cent a bushel.
The elevator reserve deduction was
2c. per bushel, and the commercial
reserve was 1 1/2-20c.

The elevator reserve now totals ap-
proximately \$3,650,000. This money
has been used to pay for over 300
elevators and the Alberta Pool's
share of the terminal elevator at the
head of the lakes. The commercial
reserve now totals approximately
\$1,750,000.

These reserve funds are required
to develop the physical facilities of
the Wheat Pool that the organization
is extending very rapidly at the pres-
ent time. An aggressive elevator
building program is being carried
out.

Each member is credited with his
share of the elevator reserve and com-
mercial reserve according to the num-
ber of bushels delivered. Interest
at the rate of 6 per cent is paid to
each member in cash. In this way
a real asset is being built up for the
growers and at the same time the or-
ganization is building up a compre-
hensive and modern elevator system.

The issuing of the final payment
for 1927 crop ends the business of the

Wheat Pool's first five year contract
period. During that time the Cana-
dian Wheat Pool handled approxi-
mately 750,000,000 bushels of grain,
with a turnover of one billion one
hundred million dollars.

The Pools are entering the second
contract period with a splendid mem-
bership, increased confidence and
\$20,000,000 in physical assets. They
are now handling the bulk of their
own grain and are working steadily
and surely on comprehensive plans to
develop Pool facilities all along the
line.

In making this final payment the
Alberta Wheat Pool issued 47,000
cheques. This required the labor of
40 employees for three weeks. Be-
fore cheques are issued the ledger ac-
counts have to be balanced in bushels
and in dollars and cents. Then
cheques are issued and balanced. In
this way the number of errors are set
at a minimum.

Here and There

(108)
Lumber companies report the
greatest volume of business in Al-
berta since the boom year of 1912.
One hundred million feet of lumber
is being cut in Alberta this year but
the bulk of the supplies come from
British Columbia mills.

A press report from Telfordville
states that the farmers are well
pleased with the allocation of sta-
tions on the twenty mile extension to
the Hoadley subdivision of the
Canadian Pacific Railway. A large
number of settlers are going into
the territory which will be served
by this extension and the old timers
in the district are now clearing and
breaking as much land as possible.

Kyohel Kato, who represents a
Tokio concern, and who has just
concluded a business mission to
Canada, stated that he had bought
8,000,000 bushels of wheat in Cana-
da, or about half of Japan's total
importations. He explained that
Japan got more for its rice than
Canadian wheat cost in their mar-
ket, hence the present purchase.
He said, too, that Japanese were
eating more wheat foods and adapt-
ing themselves to the stronger diet.

"The Maritime Provinces in par-
ticular, and Canada in general, need
more commercial advertising," was
the opinion expressed by Hon. J. B.
M. Baxter, Prime Minister of New
Brunswick, when interviewed on
arrival on board the "Empress of
Scotland" after a month's visit to
Europe. British settlers in the
Maritimes have been quite satis-
fied as regards type and quality,
he said, and he hoped that we will
be able to obtain a great many
more spread over a period of years.

Part of a litter of eight red foxes,
which, together with the vixen,
were captured in the Arcola dis-
trict recently, have been brought
to Moose Jaw by Mr. W. White, who
has established a fox farm east of
this city. It is many years since
red fox have lived at large in their
natural state in the southern part
of the province, where these were
captured. Mr. White intends to
start raising patch foxes, a cross
between red and silver or black
fox, as a commercial enterprise.

Wool growing in Western Canada
is increasing rapidly, according to
W. W. Thomson, manager of the
western branch of the Canadian
Co-operative Wool Growers Lim-
ited. Up to June 30th, he pointed
out, four carloads of wool had left
Regina for Weston, Ontario, (for
grading by Government authori-
ties) as compared with one for the
similar half year of 1927. This
year's shipments represent 108,000
lbs. from 300 flocks in the provin-
ces.

The mystic number "13" holds no
terrors to the Royal Order of Jes-
ters, an organization within the
Ismaia Temple Shrine of Buffalo,
who sailed on Friday the Thir-
teenth of July, with thirteen mem-
bers in their party, from Montreal
for Liverpool. The society meets
on the thirteenth of each month at
6:13 in the afternoon, and is divided
into courts of 13 members each.
The party of Jeslers sailed on the
creek new Canadian Pacific liner
"Duchess of Bedford" in a group of
Shriners visiting the old world.

Teacher: "Give me a sentence con-
taining the words 'frolicsome' and
'halter'."

Bright Boy: "The runaway mare
wanted to frolic some and no one could
halter."

The Man on the Bank: "Good
Heavens! I always thought that pond
was eight feet deep."

The Other: "It's is. I'm standing
on top of my car."

Another "HOLT" Triumph

Three weeks ago we published in this paper an in-
vitation urging you to investigate what HOLT COM-
BINED HARVESTERS were doing in your district.

We asked you to make comparisons
between the SWATHER and WIND-
ROW PICK-UP System of the HOLT
method as against other means of
handling grain, and also competitive
machines.

You found that our statements were correct—that
HOLT was the only 100 per cent perfect system—that
users of this method had successfully harvested their
crops while stocks were still out in the field—that their
grain averaged as high as that gathered by
any other method—that they had saved from ONE
to THREE bushels per acre in handling and from 15
to 18 cents per bushel on operating costs!

That the ORIGINAL COMBINE—the "HOLT"
—wins again over all competitors and imitations.

That users are convinced that harvesting by the
HOLT method is the solution of the farmers problems
in Canada.

This is the reason why we urged you
to investigate while the season was on
and we trust you will get an order in
early for your HOLT COMBINE FOR
THE 1929 SEASON

Amery Satisfied With Treatment Of British Harvesters

London, England. — Satisfaction that the great majority of British miner harvesters were employed under satisfactory conditions and that reports of generally bad treatment cannot be substantiated is expressed by Right Hon. L. C. M. S. Amery, secretary of state for the Dominions, in a letter to Right Hon. Arthur Henderson, chairman of the Labor party, made public here.

Mr. Amery's letter was in reply to one from Mr. Henderson in which the former home secretary said the attention of the national executive committee of the Labor party had been called to "various serious statements" regarding conditions under which the miners were employed and the treatment they received in Western Canada.

An officer was sent from England to Canada, and was still there, to deal with sickness and cases of genuine personal misfortune, Mr. Amery said. He mentioned that no harvester was adversely affected under the national insurance scheme.

"No doubt some cases of hardship have occurred—and indeed ability to face some degree of hardship is indispensable—but I am satisfied that no general complaint of bad treatment can be substantiated," Mr. Amery wrote.

"I am also satisfied that the great majority of harvesters got work under satisfactory conditions."

No Secret Treaty

Reports Of Secret Anglo-French Naval Treaty Are Untrue

Chicago, Ill.—Reports of a secret Anglo-French naval treaty were untrue, Ralph D. Blumenfeld, editor of the London Daily Express said upon his arrival in Chicago recently with a group of British newspaper men who are touring the United States.

"No government which enters into a secret agreement can endure in Great Britain," Blumenfeld said.

Blumenfeld explained that the only secrecy about the whole affair was that the correspondence between Britain, Japan and France and the United States concerning it, was kept secret. All the powers had responded save the United States, the editor said, when France became restive and announced she had reached an agreement with Britain.

Tuberculosis In Cattle

Disease Being Eradicated By Means Of Restricted Areas

Ottawa, Ont.—Tuberculosis in Canadian cattle is rapidly being eradicated through the operation of the restricted area plan, Dr. George Hilton, veterinary director-general of the department of agriculture, declares.

Where, in some areas as high as 7.9 per cent. of cows had been found infected on the first tests, re-tests had shown a general falling off to approximately one-half of one per cent.

"There is a persistent and increasing demand upon the department for restricted areas," Dr. Hilton said.

"Farmers have found that by replacing infected animals with high class stock they receive greater financial returns with less work."

Asks Leniency For Men

Viscount Lascelles Requests No Punishment For Incendiary Fire At Castle

Belfast, Northern Ireland. — Viscount Lascelles, husband of Princess Mary, has written to the government of the Irish Free State, asking that some way be found so that no punishment be inflicted upon the men who were arrested at Loughre in connection with the incendiary fire at Portmarnock Castle, the County Galway seat of Lascelles. He said that both he and Princess Mary would deeply regret if they were even indirectly the cause of suffering to anyone in Ireland.

Death Of Prominent Grain Man

Edmonton, Alta.—Hartley Mansell Pearson, general superintendent of elevators for the Alberta Wheat Pool, who was taken ill at Chauvin several days ago, passed away in an Edmonton hospital. Mr. Pearson was exceedingly well known in the grain trade, and previous to joining the pool some two years ago, was with the John R. McFarlane Grain Company of Calgary for 20 years.

Unemployment Insurance

Question To Come Up For Consideration When Ottawa House Meets

Ottawa, Ont.—Unemployment insurance, which was the subject of investigation by the industrial committee of the House of Commons last session, will be given further consideration when parliament convenes again. This assurance was given by Hon. Peter Heenan, Minister of Labor, who stated that the majority of the provinces of the Dominion already had declared themselves upon the proposal.

In its report the industrial relations committee accepted and endorsed the principle of unemployment insurance, based on compulsory contributions derived from the state, the employer and the employee. The report further pointed out that the responsibility for such legislation primarily rested with the provincial governments.

On the basis of the committee's findings the department of labor communicated with the various provinces to ascertain which of them would be prepared to consider adopting the proposal and to what extent they were willing to go at the present time. Mr. Heenan intimated that these replies would be submitted to parliament at the next session. The minister refused to divulge the views of the provinces in the matter.

Winston Churchill Joins Union

Chancellor Of Exchequer Is Identified With Building Trade Workers

London, Eng.—Winston Churchill, chancellor of the exchequer, who made quite a reputation as a bricklayer while handling a trowel in the building operations at his home in Kent last summer, has made himself one with his fellow craftsmen by joining the Amalgamated Union of Building Trades Workers. The chancellor who paid his entrance fee by cheque will receive his union card shortly.

Notifying the new recruit to trades union ranks that he will be pleased to enroll him as a member, James F. Lane, divisional secretary, sent Mr. Churchill a copy of the rules mentioning the entrance fee of five shillings and a weekly contribution of nine pence.

"This," Lane wrote, "entitles you in addition to trade protection to one pound a week should you be called out on strike and to additional unemployment benefits should you at any time fall out of employment."

Under the regulations any one employing the chancellor as a bricklayer in the future must pay him the minimum wage.

New Varieties Of Seed Wheat Ready

Demand For Garnet and Reward Greater Than Supply

Ottawa.—Nearly 25,000 bushels of seed wheat of the Garnet and Reward varieties will be provided by the Department of Agriculture this year, it is learned. The demand is stated by officials to be greater than the supply.

The new varieties were developed by L. H. Newman, Dominion cerealist, at the experimental farm here. The grain ripens from seven to ten days earlier than other varieties.

Last year's sale of seed grain amounted to approximately 3,000 bushels. So satisfactory have the results been that this year's production at the experimental farm will not nearly meet the demand. It is sold to the farmer at \$3 per bushel.

Canadian Scouts Will Attend World Meeting

Two Complete Troops Going To England For Twenty-Fifth Anniversary

Ottawa, Ont.—At a conference of Boy Scout commissioners of the various provinces, it was decided that Canada would be represented next summer in the gathering of 30,000 Scouts brought from all over world for the great jamboree to be held near Birkenhead, England, to mark the twenty-first birthday of scouting.

Plans were made for a minimum of two complete Scout troops, the final size of the contingent to depend upon the number of boys it was possible to draw from each province.

Chamberlain Will Travel Across Canada

Reaches Victoria October 29, and Sails From Quebec November 15

Ottawa.—Sir Austen Chamberlain's Canadian schedule has been given out here. He will arrive at Victoria on the afternoon of Monday, Oct. 29, remaining there until Wednesday, Oct. 31, when he leaves for Vancouver, where he spends Wednesday night. Sir Austen will leave Vancouver for Banff on Thursday morning. He will leave Banff on Sunday, Nov. 4, and arrive in Toronto early Wednesday morning, Nov. 7.

The next evening he will leave for Ottawa, arriving in the capital on the morning of Friday, Nov. 9. His stay in Ottawa will continue until Tuesday, Nov. 13, when he leaves to spend one day in Montreal. From Montreal, Sir Austen goes to Quebec, arriving in that city on the evening of Nov. 14. He will sail from Quebec the next day.

FINAL PAYMENT OF WHEAT POOL FOR 1927 CROP

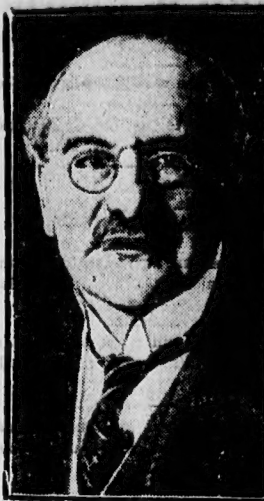

Winnipeg.—Cheques for the final payment of 2 1/4 cents per bushel on the 1927 wheat crop are now in the mail for Wheat Pool members in Manitoba, Saskatchewan and Alberta. Of the total amount distributed amounting to \$4,722,105.89, Manitoba's share is \$251,873.53. The Saskatchewan Pool received \$2,870,820, and Alberta, \$1,600,143.75.

"The final payment this year is a flat payment on all grades of wheat," it was stated by E. B. Ramsay, general manager of the Central Selling agency. "As all marketing costs and all deductions for commercial and elevator reserves were made from the last interim payment, the Pool's final price for the past year on No. 1 Northern, Fort William, was \$1.42 1/2 per bushel, as compared with \$1.42 per bushel last year, \$1.45 in 1926, \$1.66 in 1925, and \$1.01 paid by the Alberta Pool in 1924."

Regina.—President A. J. McPhail commented on the fact that the payment this year is somewhat earlier than the final payment from the 1926 crop, which was made on October 19 last year.

"A detailed report of the operations of the Pools for the crop year 1927-28 is, of course, not yet available, and will not be available until the annual meeting of delegates which takes place on November 20, but it is sufficient to say at this time that the Pool management are satisfied with the showing made during the past year. They are confident that many Pool members did not expect the final price to be so generally satisfactory, and I can only repeat what I have already stated on previous occasions, that the Pool organization, as a wheat marketing agency, can only be effective to the extent that it is both efficient in management and in control of the largest possible volume of the total marketable wheat from Western Canada. It is, I think, generally admitted that the Pool organization is to be commended for the progress made to date in building up so rapidly such a huge organization, and we hope that our efforts will be assisted in the future by the addition of many million bushels more of Saskatchewan wheat, now marketed outside of the Pools."

HAS SETTLEMENT PLAN

Lord Melchett, formerly Sir Alfred Mond, who is in Canada. He proposes land grants to settlers by the Dominion and the financing of the undertaking by Great Britain as a solution to the British unemployment problem.

Many Killed When Building Collapses

Faulty Material and Hasty Construction Blamed For Accident

Prague.—The catastrophic collapse of a newly-constructed seven-storey building here may have taken a toll of 64 lives or more, it is feared. Most of the victims were workmen putting the finishing touches on the building. Faulty materials and too hasty construction are blamed for the collapse.

The architect in charge of the construction of the building committed suicide when informed of its collapse.

A woman pushing a baby-carriage was buried beneath the avalanche of brick and masonry with her child. A chauffeur passing in a motor car suffered the same fate, as did two coachmen and the four horses pulling their vehicles. About a hundred workmen were in the building when it collapsed.

Order Will Be Repealed

Canadian Residents Working In U.S. Are Not Immigrants According To Ruling

Washington, D.C.—Order eighty-six of the United States immigration department may be formally repealed within the next week or so. Promulgated on April 1, 1927, the order caused international turmoil until the Supreme Court of the United States technically nullified it by refusing to review the judgment of a New York circuit court of appeals, setting aside its provision that Canadian residents working on the U.S. side of the border were really immigrants, and must conform to all requirements of the U.S. immigration laws.

China Inaugurates President

Shanghai, China.—General Chiang Kai Shek has been inaugurated president of China. For the first time in 17 years of her history as a republic, China thus attained a unified central government. This was a national holiday. Chiang was installed at Nanking, the Nationalist capital, with impressive ceremony, amid general rejoicing. He was made chairman of the Nationalist government council, with the title of president.

Sails For Antarctic

Commander Byrd Commences Expedition To South Polar Regions

Los Angeles, Cal.—With thousands of his fellow countrymen at the harbor to wish him well, Commander Richard E. Byrd, U.S.N., turned his face this afternoon toward his newest adventure in the ice-crusted regions of the South Pole.

The expedition, which embraces 82 members, will cost approximately \$1,150,000. The money was raised by contributions from all parts of the United States. The primary purpose of the trip is to make accurate maps and procure important meteorological and other data of the South Polar regions.

Conditions Are Improving

Department Of Labor Reports Fewer People Unemployed

Ottawa, Ont.—Material improvement in employment conditions throughout Canada during the current year is revealed in figures dealing with employment placements released by the department of labor. Up to the end of August, employment was found for 285,714 applicants at the various public employment offices in the Dominion. In the first eight months of last year work was found for 239,570 applicants.

A WELCOME FOR SETTLERS FROM THE BRITISH ISLES

London, Eng.—"No bigger untruth was ever offered in respect to a nation and a country than to say that Canada does not wish to have immigrants from the British Isles," Premier Mackenzie King of Canada declared emphatically in the course of a lengthy speech on Canada's immigration question and diplomatic representation abroad at the annual banquet of the Canada club here.

"Not only do we wish to have but we are prepared to advance money for their passage and indeed in some cases pay the entire passage for those whose labor we specially need," the Canadian Premier stressed after outlining the prosperity of Canada at present and the exceptional opportunities the Dominion held for migrants.

Hon. Charles Dunning, minister of railways for Canada, followed Premier King with a statement that he believed many of the British miner-harvesters who went to Canada this fall would remain in the west.

This experiment was merely the extension to Britain of the practice followed in Canada for 20 years, he remarked. Eastern Canadians had been going west on harvest excursions for two decades and many had settled permanently in western Canada.

The speaker strongly deprecated the idea that any considerable proportion of people without experience in Western Canada could be expected to start immediately to become successful farmers on their own account. Assisted settlement schemes could not in this way be wisely extended, he added.

A "certain type of propaganda appearing from Canada in the British press, conveying the impression that Britons are not wanted in Canada" was strongly condemned by the minister.

Gives Reasons For The Establishment Of Canadian Legations

Ottawa Appointments

Many Vacancies To Be Filled In the Near Future

Ottawa, Ont.—With the return from abroad of Premier King and Hon. Charles Dunning, minister of railways and canals, the federal cabinet will begin to deal with a large accumulation of matters. There are a dozen or more important appointments, among them being a successor to Hon. Frank Oliver on the railway commission, the radio commission, the minister to Tokio, and two directors to the National Railways directorate.

Several of these appointments will go to western men and already many names are being suggested. However, no definite action will be taken until the return of Mr. King and Mr. Dunning.

Explorer Starts Long Trek

Commander Byrd Expects To Reach New Zealand November 5

San Pedro, Calif.—Commander Richard E. Byrd has started his long trek into the un-explored Antarctic regions and out on the Pacific well on his way to New Zealand, where he will make his first stop about November 5.

Commander Byrd and his party sailed from San Pedro on the whaler C. A. Larsen, with the shrieks of whistles, the boom of guns and the cheers of thousands of persons wishing them "Godspeed on their long and dangerous journey."

SUNDAY SCHOOL LESSON

OCTOBER 21

CHRISTIAN STEWARDSHIP

Golden Text: "First they gave their own selves to the Lord."—2 Corinthians 8:5.

Lesson: 2 Corinthians 8:1-9, 15. Devotional Reading: Psalm 95:1-7a.

Explanations and Comments

The Example Of Christian Generosity Given By the Churches in Macedonia, 8:1-5.—Paul calls to the mind of his readers, the Christians of Corinth, the example in generosity of the Macedonians (the churches of Philippi, Thessalonica and Berea), and ascribes the latter's large collection for the poor at Jerusalem to God, whose grace, or love, moved them to generosity. Affliction which had put their Christian character to the proof (1 Thess. 2:14), their overflowing joy (1 Thess. 1:6), and their dire poverty, had resulted in spiritual riches, great liberality. For they gave willingly as they were able, and indeed more than they were able, as he, Paul, could testify. Perhaps Paul at first thought the Macedonians too poor themselves to share in this collection, for he now says that they begged the privilege of joining in this grace and fellowship. "The contribution of the Macedonian Christians was really comparable to the giving of the widow's mite."

"Strange to say, it is not those to whom the gospel comes easily, and on whom it imposes little, who are most generous in its cause. On the contrary, it is those who have suffered for it, those who have lost by it, who are as a rule most open-handed. Comfort makes men selfish, even though they are Christian; but if they are Christian, affliction, even to the spoiling of their goods, teaches them generosity."—James Denney.

The collection was to minister to "the saints" (Paul's term for Christ's followers) at Jerusalem. There were several reasons for their poverty. "The religious prejudices of the Jews, amongst whom they lived, entailed upon them constant social persecution, even in times of comparative peace; the claims of Christian visitors upon their hospitality were heavy; the maintenance of the apostles and of a disproportionate number of Christian teachers threw on them an undue share of Christian burdens. But whatever the causes of their poverty, it was certainly chronic."

Paul explained to the Corinthians the method of the Macedonians: they first gave themselves to the Lord. And it was their devotion to Paul as well as to the Lord which led them to further his wish in the matter of the collection. What Paul says is virtually this: "We expected little from people so poor, but by God's will they literally put themselves at the service of the Lord, in the first instance, and of us as his administrators. They said to us, to our amazement and joy, 'We are Christ's and yours after him, to command in this matter.'"

Antarctic Broadcast A Success

Montreal.—A wireless received by George A. Wendt, Canadian Westinghouse Company, states that the first attempt to broadcast special programs for members of the Byrd Antarctic expedition, now on the way to New Zealand, was completely successful.

London.—Premier Mackenzie King of Canada, addressing the Canada Club here, made the following statement, explanatory of the motives which prompted the establishment of Canadian legations at Washington and Paris:

"It is a desire to gain the advantage in international negotiation of diplomatic standing and status for whoever today may be representing Canada's interests in the United States and France, and for whoever may succeed to that high responsibility in the years to come."

"Next it is to provide means of more effective consultation and co-operation between the British and Canadian government on matters in the United States and in France which are to us of common interest and concern."

"But over and above all else is the hope we devotedly cherish that a Canadian legation in the United States and in France may serve increasingly as a reminder of the near relationship our country bears to these great countries and to this old land."

"In the United States our legation, we trust will stand as a symbol of Anglo-Saxon friendship and goodwill based upon kindred ties of blood and tongue and tradition between the British and American peoples. And our legation in France will stand as a symbol of that union of French and British minds and hearts which has helped to make Canada what she is, and a never-ending friendship between these two great races."

"Alike in the old world and in the new, it is permanent friendship and goodwill which above all else Canada seeks for herself in relation to the countries, and between these countries and the great community of the British nations to which she is so proud to belong. We are not without hope that our voice at Washington and Paris may be helpful towards that great end."

Farmhand To Stardom

Gordon McLeod, Now Touring West, Once Worked On Saskatchewan Farm

Winnipeg, Man.—A former Saskatchewan farm hand is now visiting the west under circumstances which can best be described as offering several varieties of vivid contrast. Years ago, as a lad, he was one of the humble toilers at the Indian Head Experimental Farm. He also, during that portion of his career, worked for a time at the Imperial Hotel there. At this moment, he is a stage celebrity.

The ex-harvester and student of the evening chores is Gordon McLeod, now heading his own London company on a transcontinental theatrical tour after being pitchforked into fame last year when he took Sir John Martin-Harvey's place on an hour's notice. Sir John was stricken ill in Toronto, and young McLeod filled the breach so sensationally that a number of Canadian financiers came forward and offered him the means to step into stardom.

Between the date of his earlier exertions at Indian Head and his present visit to the same vicinity, he has played in China, Japan, Burma, from Cairo to Singapore, and from South Africa to London. During the war, he served under General Smuts in the campaign against German East Africa and later, as a junior lieutenant in France.

He has previously been starred in London, but this present year makes the first occasion on which he has scaled the theatrical heights for an international tour.

Robbery Motive Suspected

Saskatoon.—Belief that Mike Harrison, whose body was found on blood-soaked newspapers beside the C.N.R. tracks near Saskatoon, was the victim of foul play, was strengthened when it was discovered he had received \$195 pay from a farmer a few days before his death. There was only 15 cents in his pocket when he was found dead, his skull badly smashed, and wounds on his back.

Killed In Display Flight

Hendon, Eng.—A Royal Air Force exhibition for the Sultan of Muscat, who is visiting in England, ended in tragedy with the death of two fliers. While one of the planes in the air display was speeding close to the earth in front of the grandstand its tail dropped off and the ship crashed violently. The victims were Flight-Lieut. Somerville and Corp. Loid.

The famous Welsh Imperial Singers who arrived in Quebec on the White Star liner "Laurentic" recently. They are on a world tour under the leadership of Mr. R. Festyn Davies.

Phone 129**Auction Sale
OF
School Lands**

PUBLIC NOTICE is hereby given that an auction sale of School Lands will be held in the Province of ALBERTA

at the place, on the date and including the territory hereafter mentioned:—

CALGARY—
Tuesday, November 13th, 1928, at 9 o'clock, A. M., comprising Tps. 20 to 25 inclusive, Rges. 17 to 23 inclusive, W. 4th M., and Tps. 20 to 33 inclusive, Rge. 24, W. 4th M. to Rge. 7, W. 5th M. inclusive.

The sales will convey the surface rights only and will be subject to the usual reservations in favour of the Crown.

The lands will be offered in quarter-sections, or portions thereof, subject to a certain upset price in each case, and will be sold without regard to persons who may be in illegal occupation of same, but such persons will be allowed a period of thirty days from date of sale within which to remove any improvements they may have placed on the lands, which are not the property of the Crown.

Where land sold has been put under cultivation by the holder of a permit, or any other person, the sale is subject to the right of the permit holder or said person to remove prior to the 31st December, 1928, the crop grown thereon.

Where land sold is held under grazing permit, such permit will become inoperative on the date of sale.

Where a parcel of land is sold, the holder of a cultivation or grazing permit thereon will be allowed until the 15th day of May, 1929, within which to remove therefrom any fencing or other improvements, not the property of the Crown, placed upon such land under the provisions of said permit.

A purchase shall at time of sale, or upon demand of the Department, pay for any area in summer/fallow upon at the date of sale at a valuation placed thereon by an official of the Department.

TERMS OF PAYMENT

One-tenth in cash at time of sale, and the balance in eighteen, equal, annual instalments with interest at the rate of six per cent per annum on the balance of the purchase money from time to time remaining unpaid, except in cases where the area of the land sold does not exceed forty acres, in which cases the terms of payment shall be one-fifth in cash and the balance in four, equal, annual instalments, whether of principal or interest, to bear interest at the rate of seven per cent per annum.

SCRIP OR WARRANTS WILL NOT BE ACCEPTED IN PAYMENT

Upon a parcel of land being knocked down, the purchaser shall immediately pay to the Clerk of Sale the amount of the first instalment; otherwise the parcel will at once be put up again.

Payment may be made in cash or by a marked cheque on any chartered bank of Canada, made to the purchaser's own order and payable at par at point of sale.

Purchasers may, at time of sale, pay in full or any amount desired in excess of first instalment.

CHEQUES WILL NOT BE TAKEN IN PAYMENT, UNLESS MARKED ACCEPTED BY THE BANK ON WHICH THEY ARE DRAWN

Lists, giving full particulars of the land to be offered, may be had on application to the Acting Commissioner of Dominion Lands, Department of the Interior, Ottawa, Ontario, or to any agent or sub-agent of Dominion

Town & District

October 19th, what?

And now the wild goose hunt is on.

Your going to the Red Cross dance at Cluny on Friday, Nov. 16th.

Hockey Dance.
Friday night.
October 19th, 1928.

Wild geese are beginning to be plentiful and already a few report fair bags.

Everybody will want to hear Joe Shaw next Wednesday night at the Canadian Club.

Bring your best girl and her man along Friday night and start the hockey season right.

The Gleichen Canadian Club is arranging for a fine program of meetings this fall and winter.

The ladies of the Gleichen United Church Circle announce their annual Xmas. sale of work will be held Saturday, Dec. 1st.

Dr. E. G. Simmonds has moved his office from the Gleichen Hospital to the brick residence south of the United Church.

The new slogan: "Buy Made in Canada Christmas Goods", is a good one everyone should keep in mind the year around.

The Cluny Women's Institute are giving a dance for the benefit of the Red Cross on Friday, Nov. 16th, in the Cluny Hall, and also will hold their annual bazaar and chicken supper on Saturday Dec. 1st.

On Thurs. Nov. 28, I. D. Macdougall, M.P., of Nova Scotia, will address the Gleichen Canadian Club on the history and development of the Maritime, discussing the industrial and mining situations at the present.

Jas. Shaw, M.L.A., will address the Gleichen Canadian Club next Wednesday night, Oct. 24th. His subject will be "The Map of Europe as Re-adjusted since the Great War." The Club is inviting all the school boys and girls from grade seven upwards. Mr. Shaw is a very fluent speaker and has been heard on Gleichen platforms before now and no doubt everyone will want to hear him on this interesting subject.

"Hold fast to that which is good" until you can grab something better.

**INFORMATION WANTED
OF RICHARD PARKER**

Regarding the whereabouts of Richard Parker, aged 75, height about five feet five inches, short build, blue eyes, blind in left eye, white hair. Wandered away from Salvation Army "Eventide Home," at Cluny, on Sunday, Sept. 23rd., during lapse of memory. as wearing grey tweed suit, grey overcoat and straw hat. Was supposed to have been seen at Hardisty about a week afterwards. He would likely say he was going to Piddington, which was his birthplace. Information would greatly relieve his wife and family. Please notify police. Other papers please copy.

**RUPTURE
EXPERT HERE**

F. H. Seeley, of Chicago and Philadelphia, nationally famous expert, will himself personally be at the Fallisier Hotel, and will remain in Calgary Sunday, Monday, Tuesday and Wednesday only, Oct. 21, 22, 23, 24, from 9 a.m. to 5 p.m. daily.

Mr. Seeley says:

"The Spermatic Shield will not only retain any case of rupture perfectly, but contracts the opening in 10 days on the average case. Being a vast advancement over all former methods—exemplifying instantaneous effects immediately appreciable and withstanding any strain or position no matter the size or location. Large or difficult cases, or incisional ruptures (following operations) specially solicited. This instrument received the only award in England and in Spain, producing results without surgery, injections, medical treatments or prescriptions, with distinguished personal patrons of all nations." "His methods has always been most satisfactory."—Late Dr. Edward Shippen, former Medical Director, U. S. Navy.

This instrument is the same as supplied to Surg. Genl. Bureau, U. S. Naval Hospital.—Penn. R. R., Etc. Etc. He will be glad to demonstrate without charge or fee if desired. Business demands prevents stopping at any other place in this section.

N. B.—Every statement in this notice has been verified before the Federal and State Courts.—F. H. SEELEY.

CAUTION—All cases should be cautioned against the use of any elastic or web truss with understraps, as same rest where the lump is and not where the opening is, often resulting in strangulation.
Home Office, 117 N. Dearborn St., Chicago, Ill.

The Call agrees to print anything you may need at the lowest regular price in any part of Canada.

**MAKING A CONVENIENCE OF A
BUSINESS**

Many there are who make of a legitimate and well-established business nothing but a convenience—a place from which to get further afield. They do not hesitate to send their good money away for many things they need, and which could just as satisfactorily and much more promptly be supplied by their home merchants and dealers. No business, no matter of what nature, can long exist on this sort of patronage. Nor is it fair to expect that it should. The public expect to receive services as and when they demand it; but many do not do their part in making this possible.

There are manufacturing industries with fairly complete equipment which, because of such lack of consideration, are idle much of the time. It must be patent to all that a busy plant can operate much more cheaply than one which is working only on part time. Therefore it should be the policy of all to place their business of whatever kind it may be with the local plant or factory to the end that it may be kept reasonably busy and thus be in a position to give its best service.
